President's Report

Trout season is with us now. I hope everyone had a good first day, and enjoy the rest of the season. Spring Turkey season is coming up real fast, please hunt safely and enjoy the outdoors.

I would like to thank everyone who helped out with the two Seafood Dinners. The dinners were a great success.

We also need someone to take over the folding of the Newsletter and getting it to the Post Office each month.

Elections are coming up. If you want to run for an office or to be on the Board of Directors, please give me a call at 717-870-3593.

It is time Members became more involved in the Club. It is your Club, so if you do not want to get involved, please do not complain when we make decisions about the club.

Juniors Corner:

The Juniors had a 3-D shoot on March 27th. We had 39 shooters. Thanks to everyone who came out and helped. Our Juniors also were on the club grounds on the first day of trout season. Thank you to everyone who braved the cold damp weather to give us a hand.

Remember, our Easter Egg Hunt will be on April 23rd at 1:00. The Juniors will be dyeing Easter Eggs on April 22nd at 6:00 pm in the Clubhouse. Clubmembers, could you please donate eggs for the egg hunt? Please contact: Rachel Eberly at 818-4939, or Chris Gerver at 873-8992.

Honeybee Program

Have you ever wondered how honeybees make honey? Are you curious about beekeeping and how it works? Any child or adult interested in learning about beekeeping are encouraged to join the honeybee program being run by the Juniors. This is an opportunity to get involved with the Juniors and learn an exciting new hobby!! Contact: Jennie Lauer @ 993-6124 or 318-0333 with any interest.

Honeybee swarms wanted!! If you come across a swarm of honeybees or hear of a swarm from a friend or neighbor, contact Jennie Lauer @ 993-6124 or 318-0333.

These will be used to replace any colonies that we may have lost over the winter. You may be asking...What is a swarm? If you see a cluster of bees about the size of a cantaloupe or larger hanging from a tree....that's a swarm. Note: We are not looking for bees that are in walls of houses/barns. These guys already have a permanent home and are happy where they are.
